The regional risk picture is limited to Oman, Saudi Arabia, United Arab Emirates, Israel, Jordan, Iran and the domains evidenced this week: Business & Operational Disruption, Energy and Market Policy. The operating channels are personnel and travel, sites and assets, transport and supply chains, business continuity. Oman (Business & Operational Disruption): Oman saw violence, military activity or access restrictions near affected routes or sites. Saudi Arabia (Energy and Market Policy): Saudi Arabia saw an attack affecting the East-West pipeline and Yanbu oil shipments, creating a specific question over export flows and recovery timing. United Arab Emirates (Business & Operational Disruption): Flight operations or routing in United Arab Emirates were disrupted during the reporting period. Israel (Business & Operational Disruption): Israel experienced a transport or maritime event affecting cargo, passenger movement or route availability. Jordan (Business & Operational Disruption): Jordan experienced a transport or maritime event affecting cargo, passenger movement or route availability. Iran (Business & Operational Disruption): Iran experienced a transport or maritime event affecting cargo, passenger movement or route availability.

KEY DEVELOPMENTS

Oman | Oman
Oman maritime access disruption
Category: Operational Disruption
Current Severity: High
Assessment: Oman saw violence, military activity or access restrictions near affected routes or sites.
Polestar View: Commercial risk rises if violence reaches transport corridors, population centres or operating sites, or if authorities impose wider access restrictions.
Outlook 7 Days: Next seven days: track border notices, route restrictions, further clashes and credible indicators of displacement or access loss.

United Arab Emirates | United Arab Emirates
Dubai airport drone disruption
Category: Operational Disruption
Current Severity: Low
Assessment: Flight operations or routing in United Arab Emirates were disrupted during the reporting period.
Polestar View: Restoration timing and diversion capacity will determine whether the aviation disruption remains local or affects regional passenger and cargo schedules.
Outlook 7 Days: Next seven days: track airport status notices, flight cancellations, alternate routing and restoration timing.

Jordan | Jordan
Jordan maritime route disruption
Category: Operational Disruption
Current Severity: Low
Assessment: Jordan experienced a transport or maritime event affecting cargo, passenger movement or route availability.
Polestar View: The significance is confined to the named market unless the effect persists, spreads geographically or creates cross-border consequences.
Outlook 7 Days: Next seven days: watch official casualty, vessel-recovery, port-access or route notices.

Saudi Arabia | Saudi Arabia
Saudi pipeline attack disrupts oil shipments
Category: Energy
Current Severity: High
Assessment: Saudi Arabia saw an attack affecting the East-West pipeline and Yanbu oil shipments, creating a specific question over export flows and recovery timing.
Polestar View: The commercial risk is tied to whether the pipeline and Yanbu disruption reduces export capacity or is contained without wider effects on regional energy logistics.
Outlook 7 Days: Next seven days: verify pipeline integrity, Yanbu loading status, export-flow restoration and any confirmed diversion of oil shipments.

2 corroborating sources

Israel | Israel
Israel maritime route disruption
Category: Operational Disruption
Current Severity: Low
Assessment: Israel experienced a transport or maritime event affecting cargo, passenger movement or route availability.
Polestar View: The significance is confined to the named market unless the effect persists, spreads geographically or creates cross-border consequences.
Outlook 7 Days: Next seven days: watch official casualty, vessel-recovery, port-access or route notices.

Iran | Iran
Iran maritime route disruption
Category: Operational Disruption
Current Severity: Low
Assessment: Iran experienced a transport or maritime event affecting cargo, passenger movement or route availability.
Polestar View: The commercial risk is tied to verified vessel recovery, crew safety and whether route controls or insurer guidance alter shipping access beyond the reported incident.
Outlook 7 Days: Next seven days: verify crew recovery, vessel movement, navigational warnings and any confirmed rerouting of cargo traffic.

7 DAY WATCH

No qualifying watch items were identified in the reporting period.

BUSINESS IMPLICATIONS

Oman, Saudi Arabia, United Arab Emirates, Israel, Jordan, Iran: People and Travel: Oman: The immediate exposure is movement and site access near affected routes; the regional effect depends on persistence, spread and restrictions on commercial movement. United Arab Emirates: The action affects public transport and employee movement; the immediate consequence is route access and any confirmed service suspension. Operations and Assets: Oman: The immediate exposure is movement and site access near affected routes; the regional effect depends on persistence, spread and restrictions on commercial movement. Saudi Arabia: The exposure is concentrated in oil-flow continuity and export logistics; confirm pipeline integrity, Yanbu loading status and the availability of alternate shipment routes. Supply-chain and logistics: Saudi Arabia: The exposure is concentrated in oil-flow continuity and export logistics; confirm pipeline integrity, Yanbu loading status and the availability of alternate shipment routes. United Arab Emirates: The action affects public transport and employee movement; the immediate consequence is route access and any confirmed service suspension. Regulatory and market-access: Saudi Arabia: The exposure is concentrated in oil-flow continuity and export logistics; confirm pipeline integrity, Yanbu loading status and the availability of alternate shipment routes. Business Continuity: Saudi Arabia: The exposure is concentrated in oil-flow continuity and export logistics; confirm pipeline integrity, Yanbu loading status and the availability of alternate shipment routes.

POLESTAR OUTLOOK

Middle East forward risk is tied to the unresolved conditions in Oman, Saudi Arabia, United Arab Emirates, Israel, Jordan, Iran. Oman: Next seven days: track border notices, route restrictions, further clashes and credible indicators of displacement or access loss. Saudi Arabia: Next seven days: verify pipeline integrity, Yanbu loading status, export-flow restoration and any confirmed diversion of oil shipments. United Arab Emirates: Next seven days: track airport status notices, flight cancellations, alternate routing and restoration timing. Israel: Next seven days: watch official casualty, vessel-recovery, port-access or route notices.
