

CARGO WATCH

POLESTAR INSIGHTS

REPORTING PERIOD: 25 APRIL 2026 - 24 MAY 2026

EXECUTIVE SUMMARY

Cargo-security reporting this period centred on inland transport activity, with cargo theft in transit and arrest of cargo crime group the clearest drivers of exposure. Reporting was most concentrated in India, although this may partly reflect stronger local media coverage there. Overall severity was predominantly moderate, with a minority of events reaching high severity. This keeps route security and driver integrity the main operational priority, with route planning and driver vetting the controls most in need of reinforcement across the region.

Reporting spread across the period, with inland transport the most frequently reported pattern.

Cell shading reflects reporting frequency, not severity — a stronger blue means more incidents were reported in that pattern and week.

PRIORITY MATRIX

Priority Matrix

Each pattern placed by how often it recurs (horizontal) against its consequence (vertical).

- 1 **Cargo theft in transit** — Persistent Exposure
- 2 **Arrest of cargo crime group** — Emerging Concern
- 3 **Weapons / contraband seizure (cargo / port)** — Persistent Exposure
- 4 **Truck hijacking** — Monitor
- 5 **Container theft (inland)** — Monitor
- 6 **Warehouse theft** — Monitor
- 7 **Other cargo security incident** — Monitor
- 8 **Port-linked cargo smuggling** — Monitor

Consequence blends severity, confirmed loss, violence and organisation signals. Position is indicative, not to scale.

POLESTAR VIEW

The available reporting is consistent with continued inland transport exposure around India, rather than a confirmed, coordinated campaign. Confirmed loss figures cover only a minority of records, so the true financial exposure is understated.
