

INDONESIA

POLESTAR INSIGHTS

REPORTING PERIOD: 22 JULY 2026 - 28 JULY 2026

BOTTOM LINE UP FRONT

The most serious validated development in Indonesia was sintang traffic accidents have killed 21 people through July; police urge residents to prioritize safety on 24 July 2026. The period also brought flash floods hit Afghanistan, dozens dead and hundreds missing and at least 2 killed and 5 wounded in shooting at Seattle Center. During the reporting period, natural hazard and other operational disruption events made up most of the reporting, and Jakarta carried a disproportionate share of it. Reporting volume fell compared with the previous period. For operations, the immediate significance is that the lead event bears directly on staff safety and journey planning around the affected area.

TOP 3 DEVELOPMENTS

Sintang traffic accidents have killed 21 people through July; police urge residents to prioritize safety

EXTREME

Natural hazard · Reported 24 Jul 2026 · PontianakPost

For operators, an event of this kind bears directly on staff safety and journey planning around the affected area.

Flash floods hit Afghanistan, dozens dead and hundreds missing

LOW

Natural hazard · Reported 22 Jul 2026 · Minanews.net

For operators, an event of this kind can affect access, utilities and staff availability across the affected area.

At least 2 killed and 5 wounded in shooting at Seattle Center

HIGH

Armed robbery / violent crime · Reported 28 Jul 2026 · Lentera Today

For operators, an event of this kind bears directly on staff safety and journey planning around the affected area.

CURRENT SITUATION

Security incidents in Indonesia during the reporting period were concentrated in Jakarta, Padang and Lampung, with the remainder unlocated. Natural hazard and other operational disruption were the principal concerns. Jakarta and Banten generated repeat reporting within the period, so the pressure there is sustained rather than a one-off. The incidents do not currently form a single nationwide pattern; risk varies by location, and movement decisions should be based on current conditions at the destination.

PROTEST & CIVIL UNREST

Protest activity and the crowd-control response to it were reported, including protest and labour action, concentrated in DKI Jakarta, Central Java and East Java. The most serious reported was From chicken theft to street clashes: why mob violence keeps recurring, assessed as High severity. Reporting of this activity eased against the previous week. This reporting is most relevant to road movement, site access and staff commuting near affected areas. Gatherings and the response to them can close roads and disrupt access at short notice.

OTHER OPERATIONAL DISRUPTION

Operational disruption to transport, utilities or connectivity was reported, including other security and transport disruption, concentrated in DKI Jakarta, Central Kalimantan and North Sumatra. The most serious reported was Chelsea, AC Milan to Bring Star Players for Indonesia Super Cup Clash (DKI Jakarta), assessed as High severity. Reporting of this activity eased against the previous week. This reporting is most relevant to transport, power, communications and the operations that depend on them. Disruption of this kind can interrupt operations, logistics and connectivity.

CRIME, THEFT & ROBBERY

Crime, theft and violent incidents were reported, including armed robbery, crime and terrorism, concentrated in West Java, Lampung and Bali. The most serious reported was Rejang Lebong, Bengkulu police investigate murder of coffee farmer, assessed as High severity. Reporting of this activity eased against the previous week. This reporting is most relevant to staff safety, premises, vehicles and the secure movement of cash and assets. Incidents of this kind threaten staff, premises and the movement of cash and assets.

OPERATIONAL IMPACT

- The event is close to, or significant enough for, local movement and planning to be reviewed.
- The event is close to, or significant enough for, local movement and planning to be reviewed.
- The event is close to, or significant enough for, local movement and planning to be reviewed.
- The event is close to, or significant enough for, local movement and planning to be reviewed.

RECOMMENDED ACTIONS

- Nationally: Check nearby site exposure, access disruption and continuity arrangements. Escalation trigger - a fire or blast at an industrial, fuel or utility site, or one forcing an evacuation nearby.
- Greater Jakarta & West Java: Avoid protest locations, allow extra journey time and keep routes flexible. Escalation trigger - a call for mass mobilisation, a march on government or company premises, or clashes with police.
- Greater Jakarta & West Java: Review movement routines, cash handling, parking and local premises security. Escalation trigger - repeat armed incidents in the same area, or targeting of staff, vehicles or

commercial premises.

- Central & East Java: Monitor for regulatory, procurement or local authority follow-on. Escalation trigger - a new regulation, licence suspension or enforcement action affecting operations.
- Greater Jakarta & West Java: Monitor hazard and flood warnings; check site access, drainage and continuity arrangements. Escalation trigger - an official flood, storm or seismic warning upgrade, or an airport or port closure.

OUTLOOK: NEXT SEVEN DAYS

Natural hazard is likely to remain the main concern during the next seven days. Jakarta, Banten and Aceh saw repeat reporting within the period and are the most likely setting for renewed incidents. Reporting volume fell compared with the previous period. The coming days should be judged against that direction rather than any single event.

ESCALATION INDICATORS

- Larger or coordinated protest mobilisation, or labour action spreading to key sites and corridors
- Further casualty-bearing or higher-severity violence close to staffed premises
- Spread of incidents beyond Greater Jakarta & West Java and Greater Jakarta & West Java into new districts

REPORTED UPCOMING ACTIVITY

- Civic protest march: Confirm details, expected turnout and operating impact inside 24-48h. (reported 26 Jul 2026).
- Civic protest march (Jakarta): Confirm details, expected turnout and operating impact inside 24-48h. (reported 24 Jul 2026).

POLESTAR VIEW

This period the reporting that carried real weight was violent crime; the rest of the week's items were routine by comparison. Weighed together, the week's reporting bears most on both movement planning and the safety of staff and premises, and that is where checks will pay off first. On assessment, the risk is localised and varies by location, and it is best managed through location-specific decisions rather than country-wide measures. The key judgement is that natural hazard drives the current concern, while other categories contributed limited, separate disruption. Businesses should prioritise verified route and site information for Jakarta and Padang over broad precautionary measures.
